Product Exhibition Center - Yunshu Campsite, located in Xianlu Island, Nanhai District, Foshan City, covers an area of 30,000 square meters and is one of the largest mobile house product display centers in Guangdong Province.

Company Honors

Patent Certificate 18+

Guose attaches great importance to trademark and patent protection, and safeguards the legitimate rights and interests of enterprises and consumers.

Certificate of Honor 80+

Guose strictly implements standardized production, and its products can withstand strict quality inspection processes.

Material Certification 34+

Guose products meet export standards and have obtained material standard certification from multiple countries

Modular house concept

Modular house is a new form of house construction that divides the components of the house into different functional modules, realizes factory manufacturing through standardization, modularization, and generalized production, and can be quickly assembled on site.

Modular house advantages

1. Faster construction speed compared to traditional house construction methods
2. Higher precision and quality stability, better quality control
3. Flexible combination and customized design of modules according to different needs
4. Shortened construction period can reduce labor costs and better economy

Resistant to typhoons
Level **15 -17**

Resistant to earthquakes
Level **10 or above**

Roof pressure reach
280kg/sq

Single module **Not**
More than 50kg

Each board can bearing
capacity **8-10** people

High-quality modular

Modular houses are made up of multiple pre-manufactured modules, which can be different building components such as walls, floors, roofs, stairs, etc. Each module is produced in the factory according to strict standards and processes to ensure its quality and dimensional accuracy.

High-quality modular panels

The size of a standardized modular panel is **1220mm**. The size of a modular house can be customized according to customer needs and is composed of multiple standardized modular panels

Toilet Module

High quality toilet module

Independent modules

Integrated sanitary ware

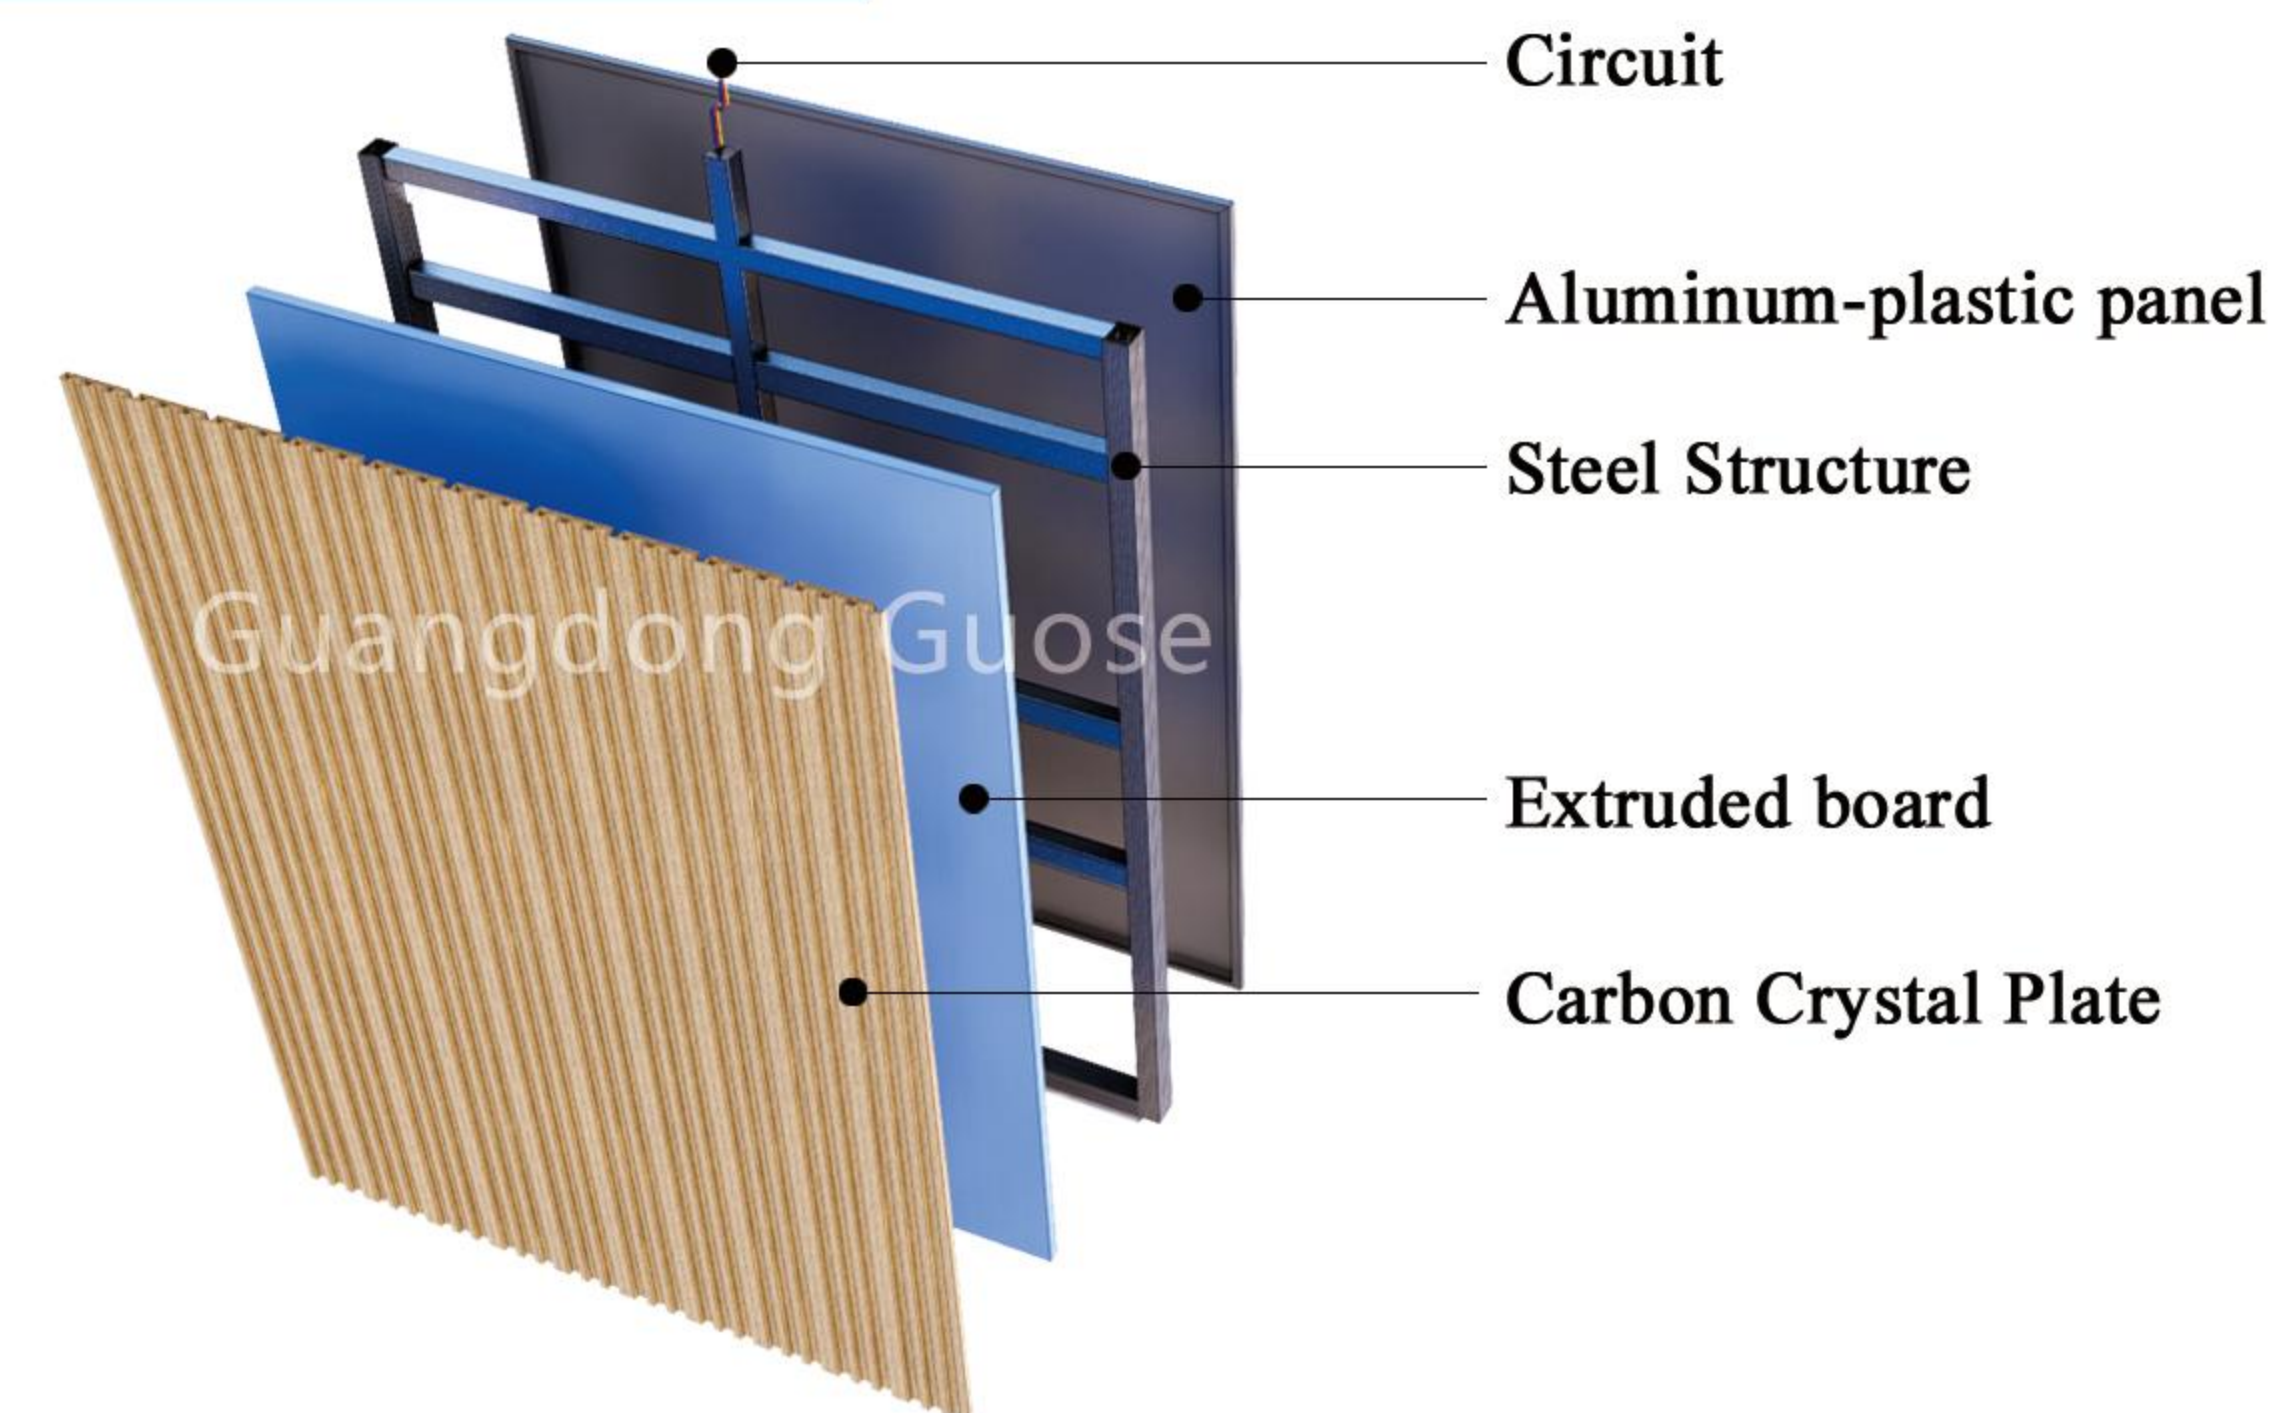

Can be moved by forklift

Power on and you can use it

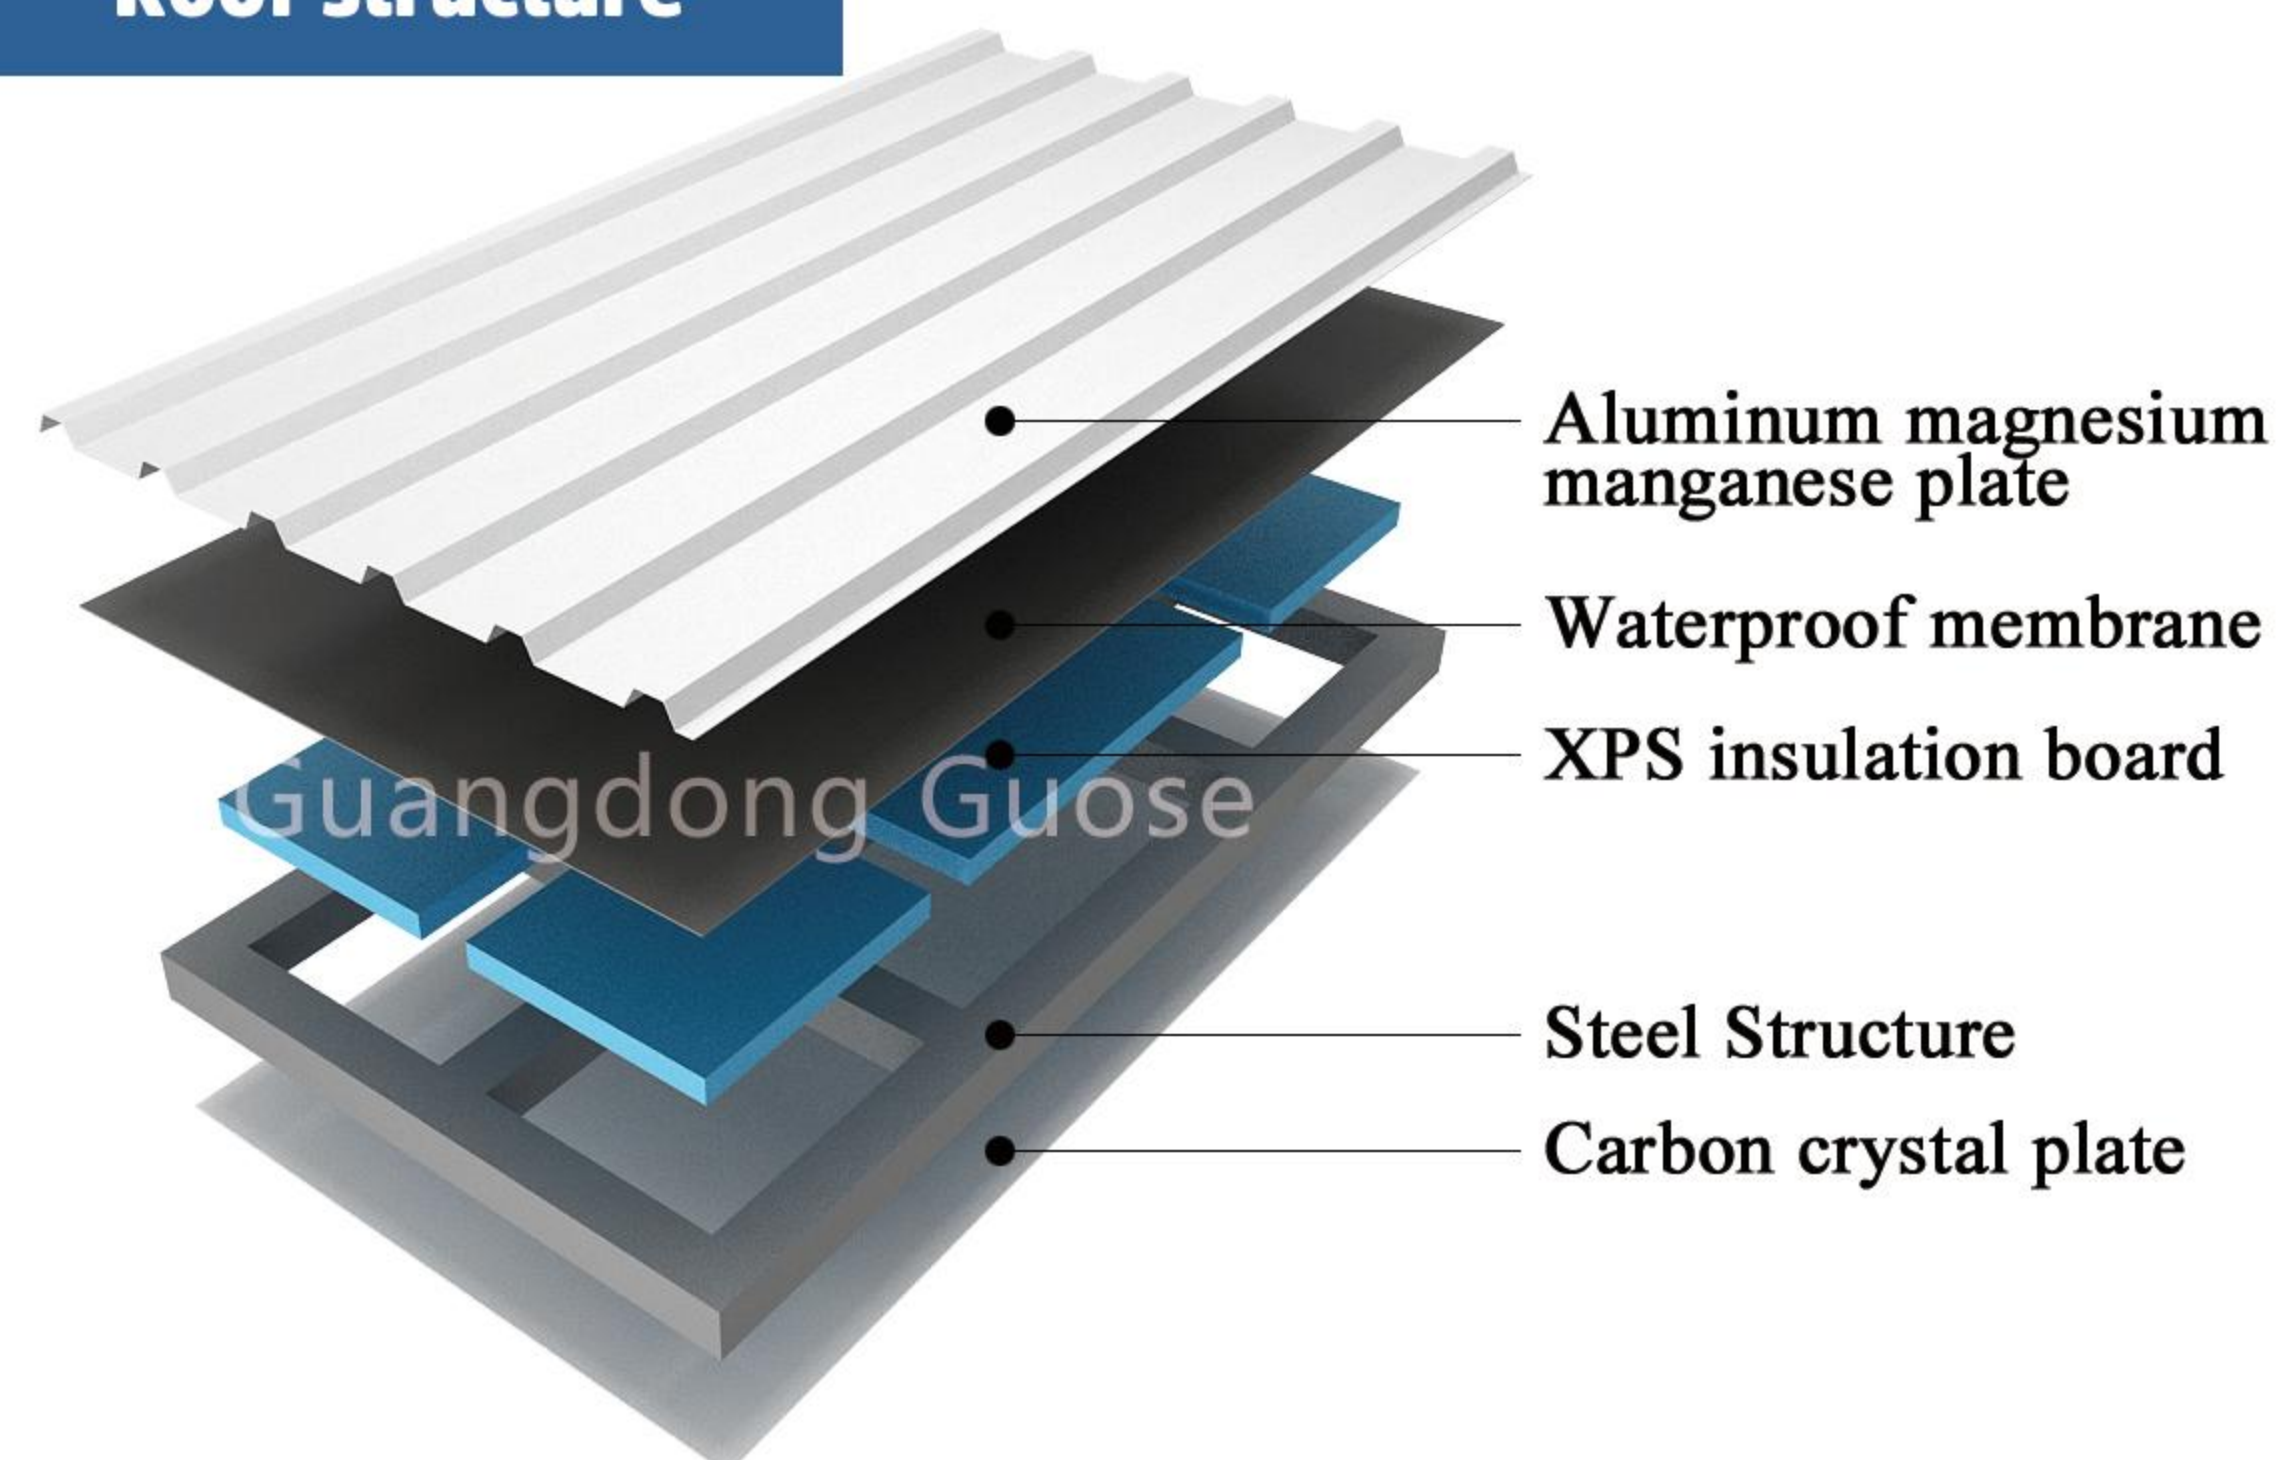

Flooring composition

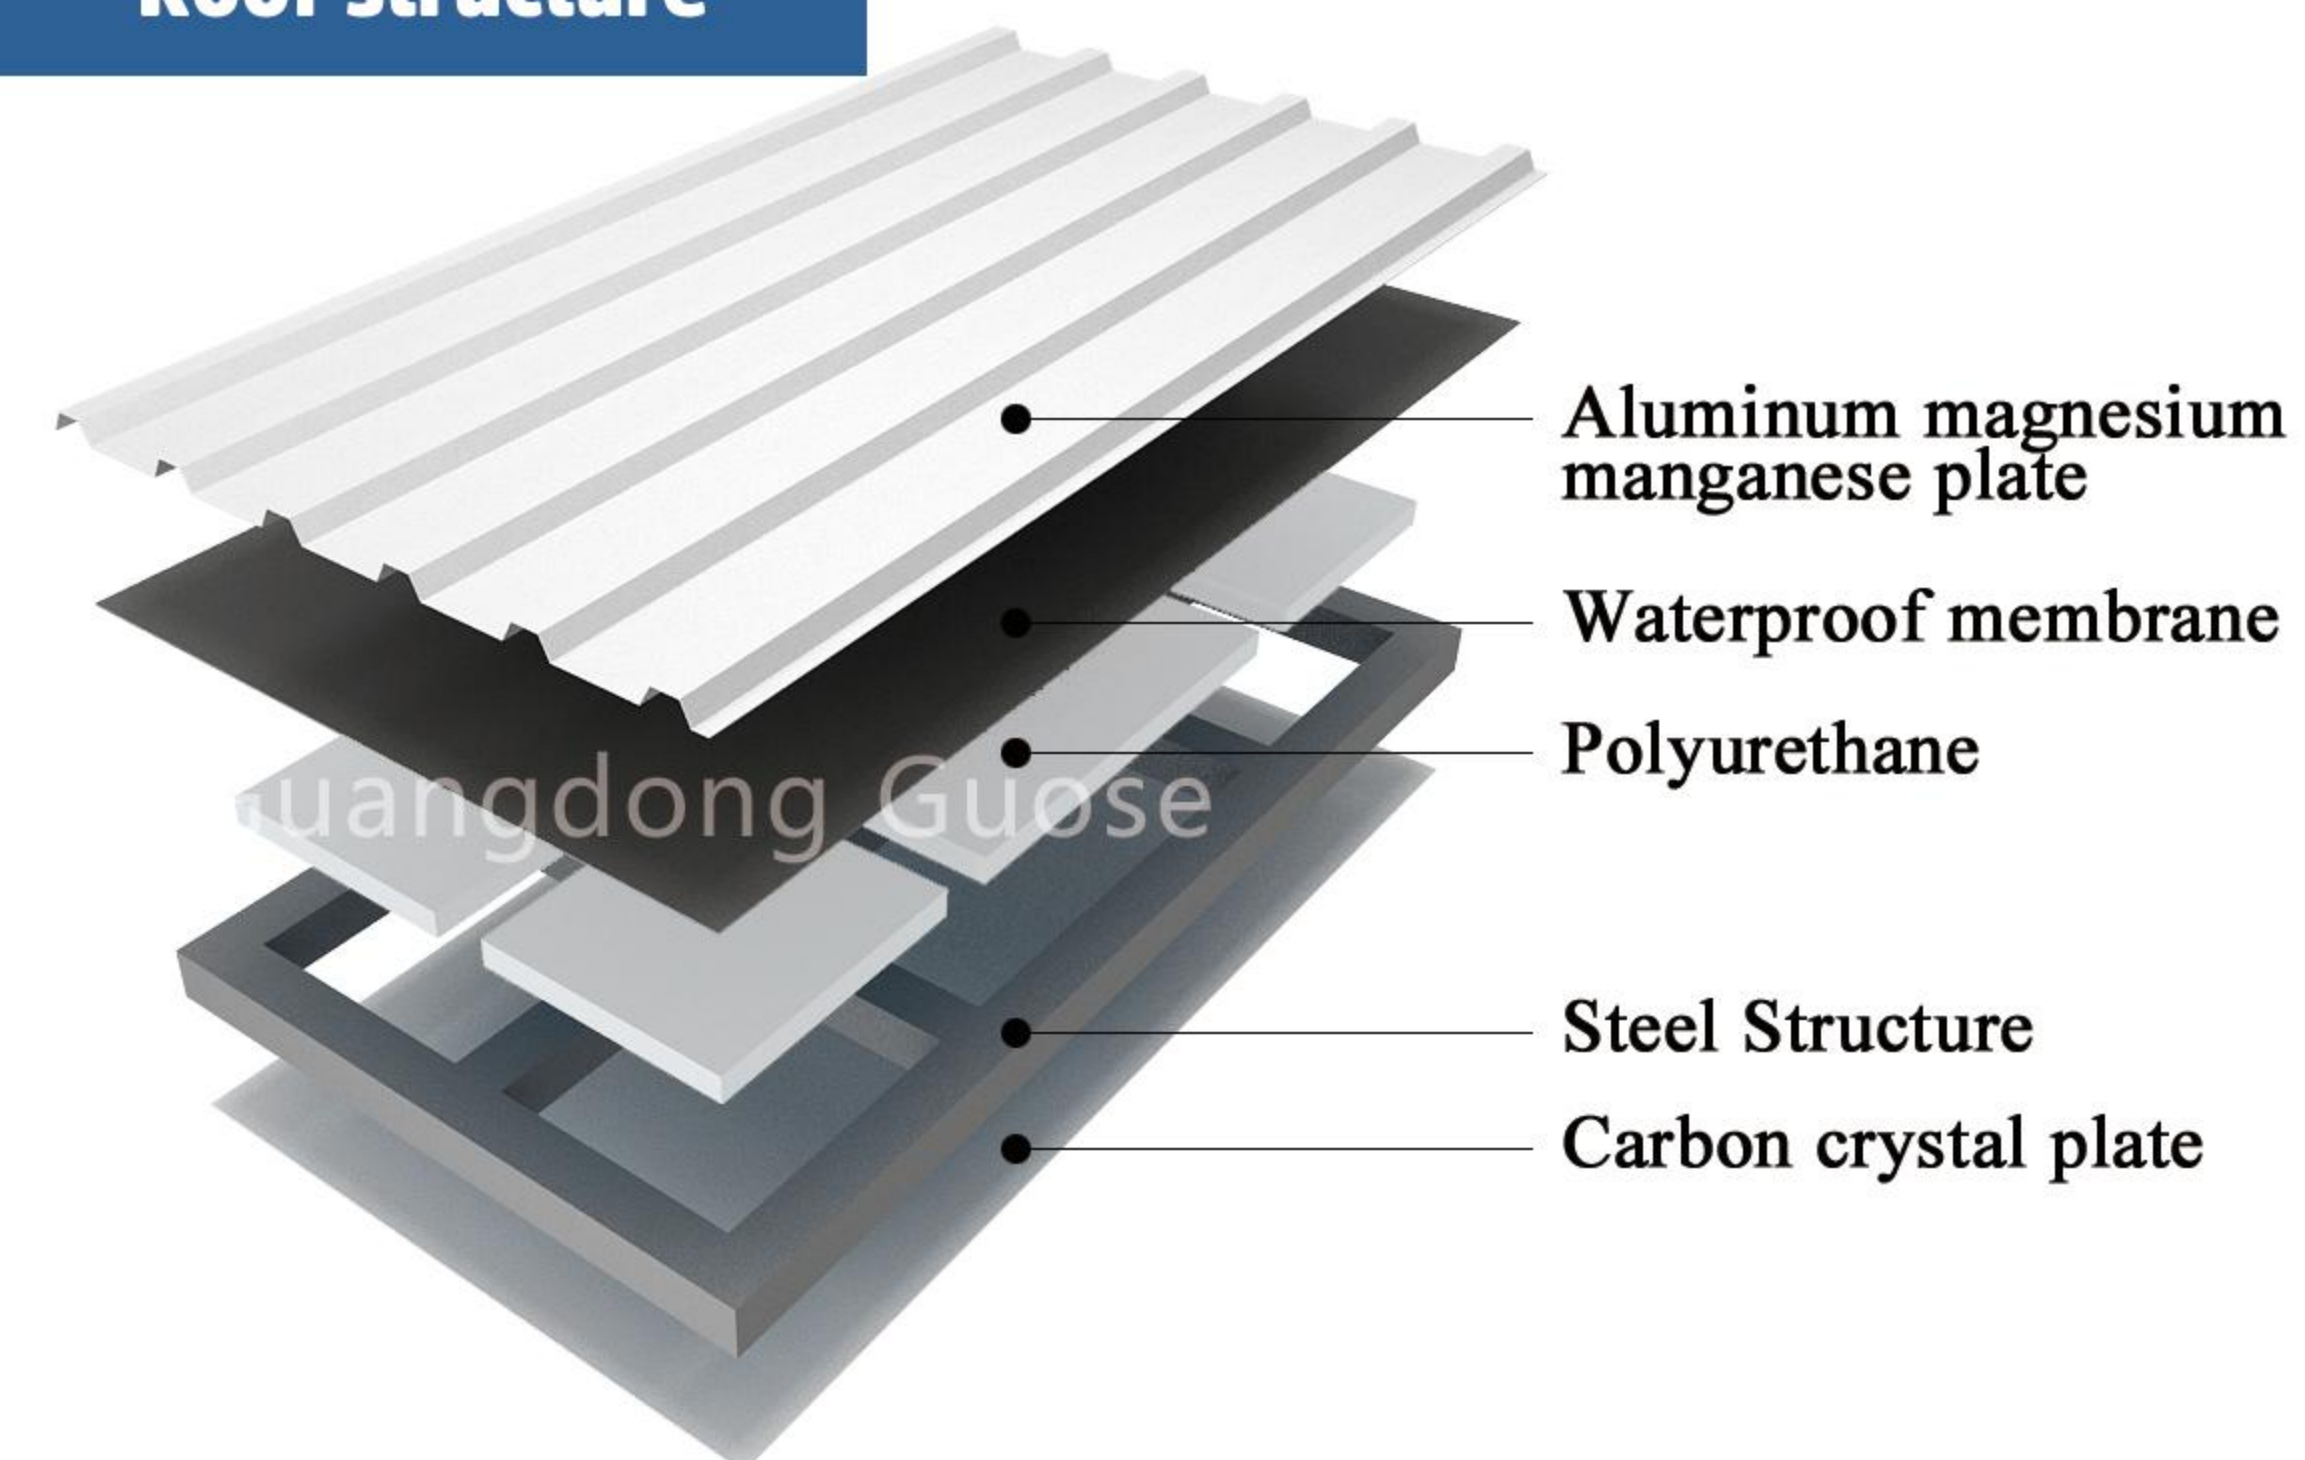

Wall structure

Roof structure

Roof structure

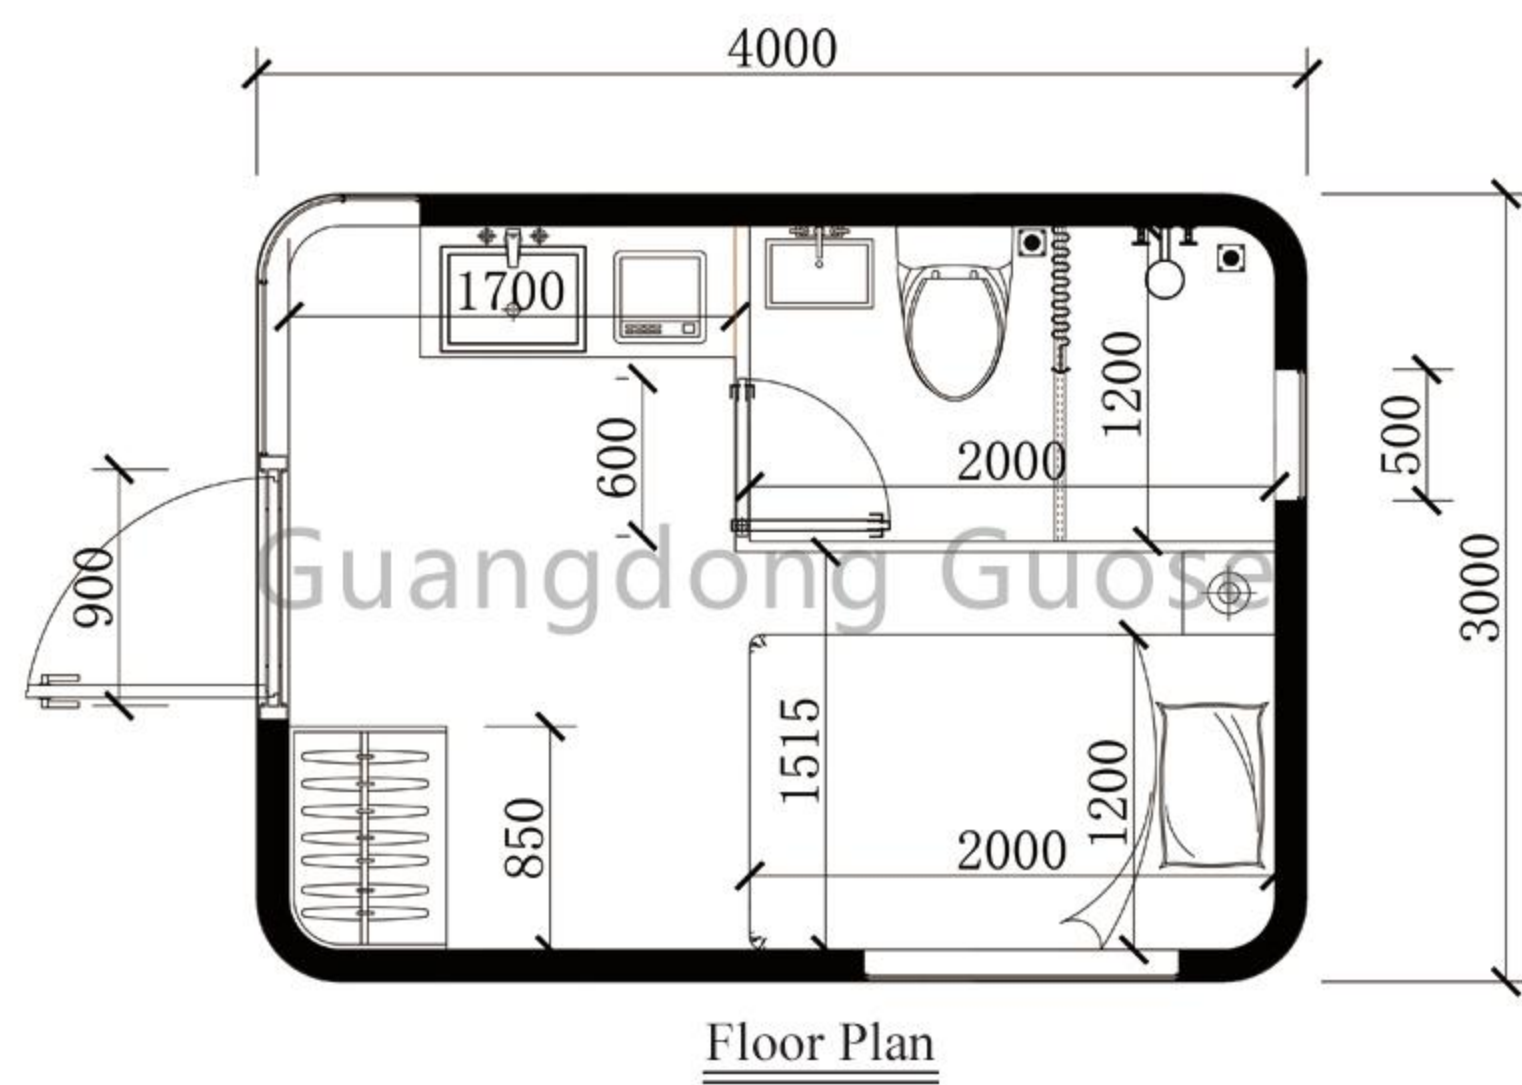

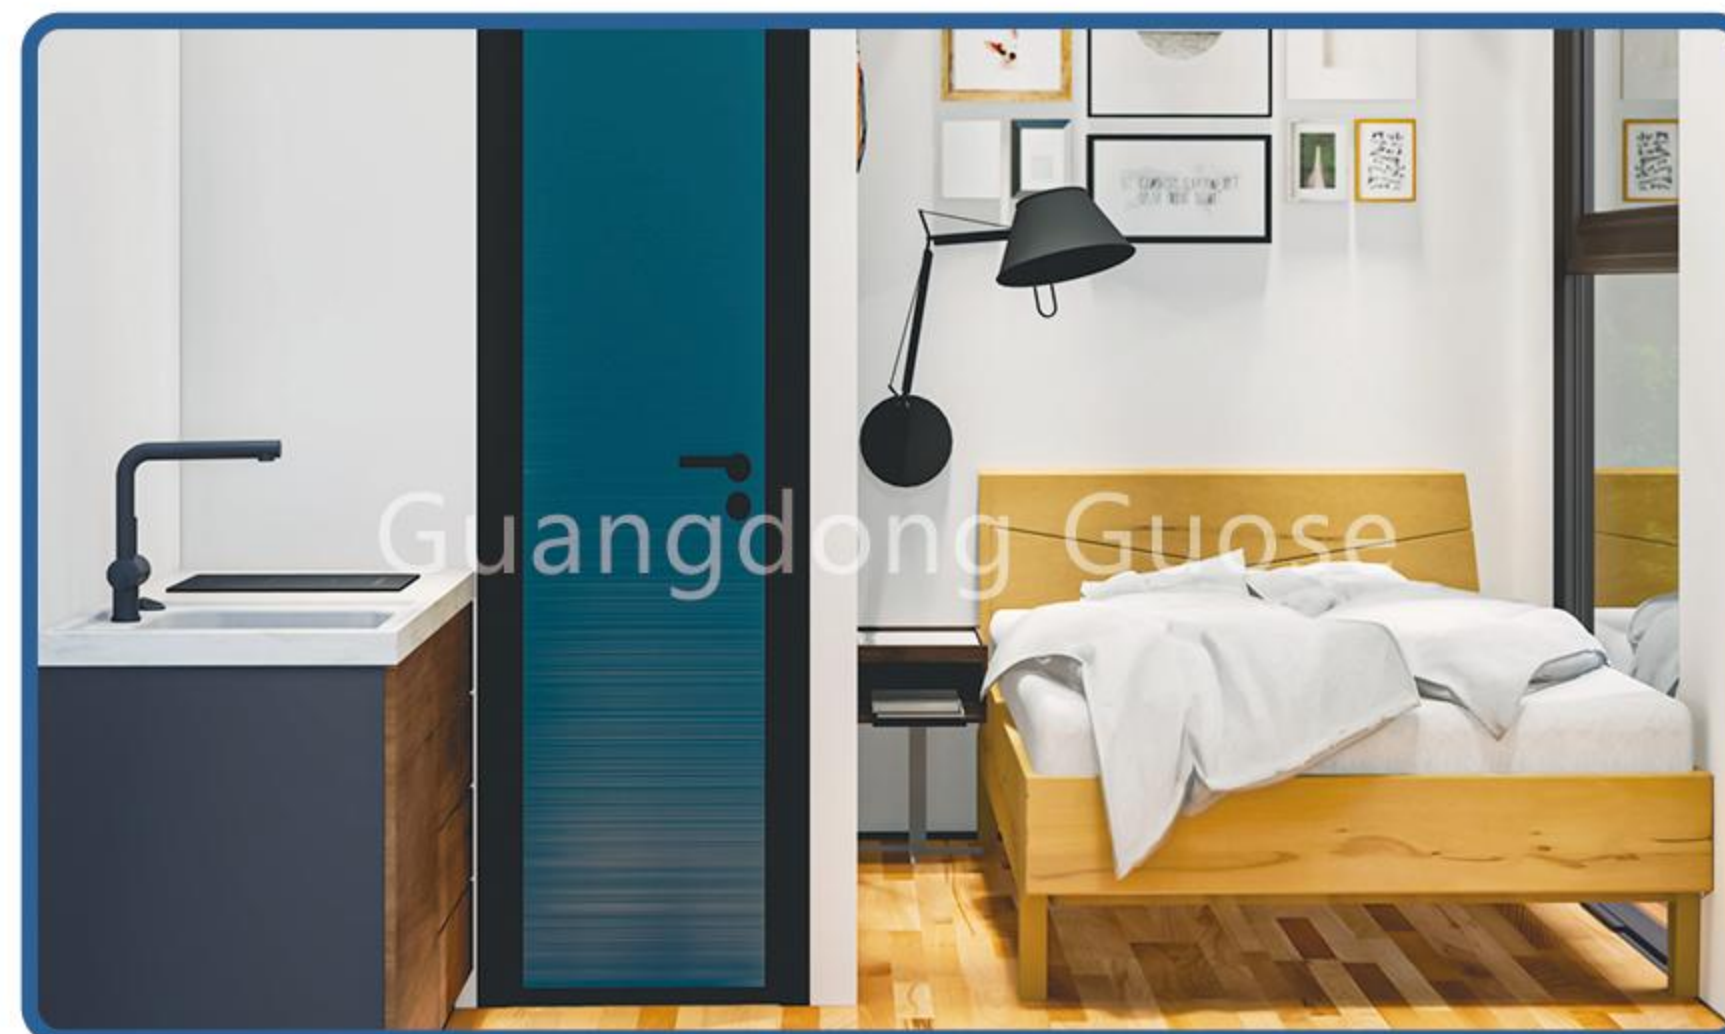

Packaging and Shipping

Modularization can achieve efficient space utilization, transport multiple modules at a time, improve transportation efficiency, and minimize freight and reduce costs.

MODULAR HOUSE-MH00

MH00 Modular House

Product size: 4000 x 3000 x 3000mm

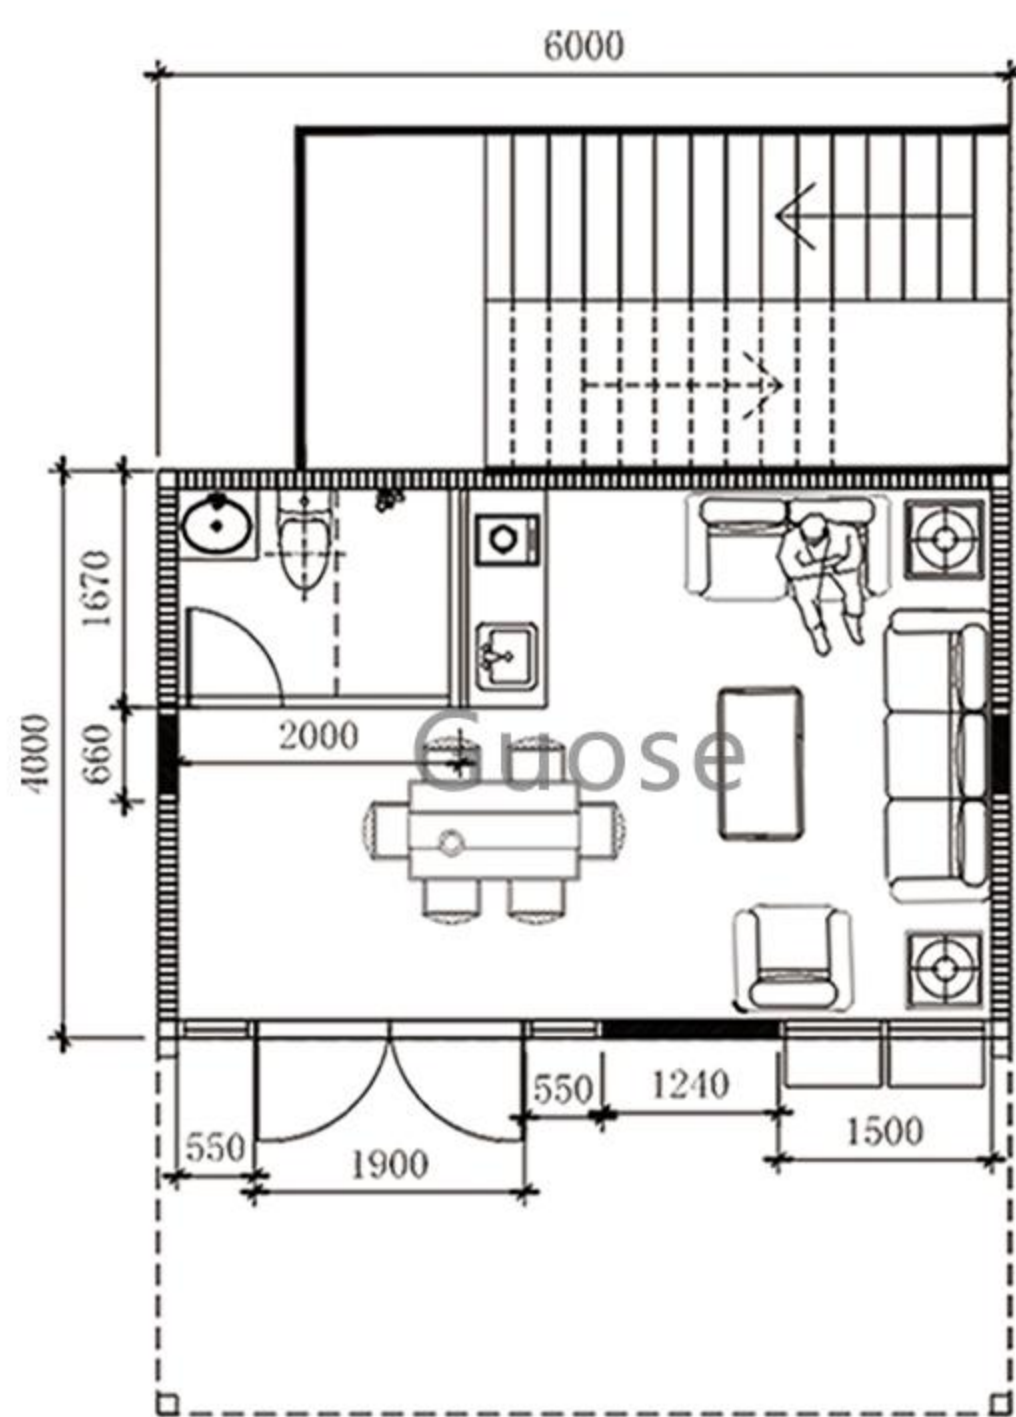

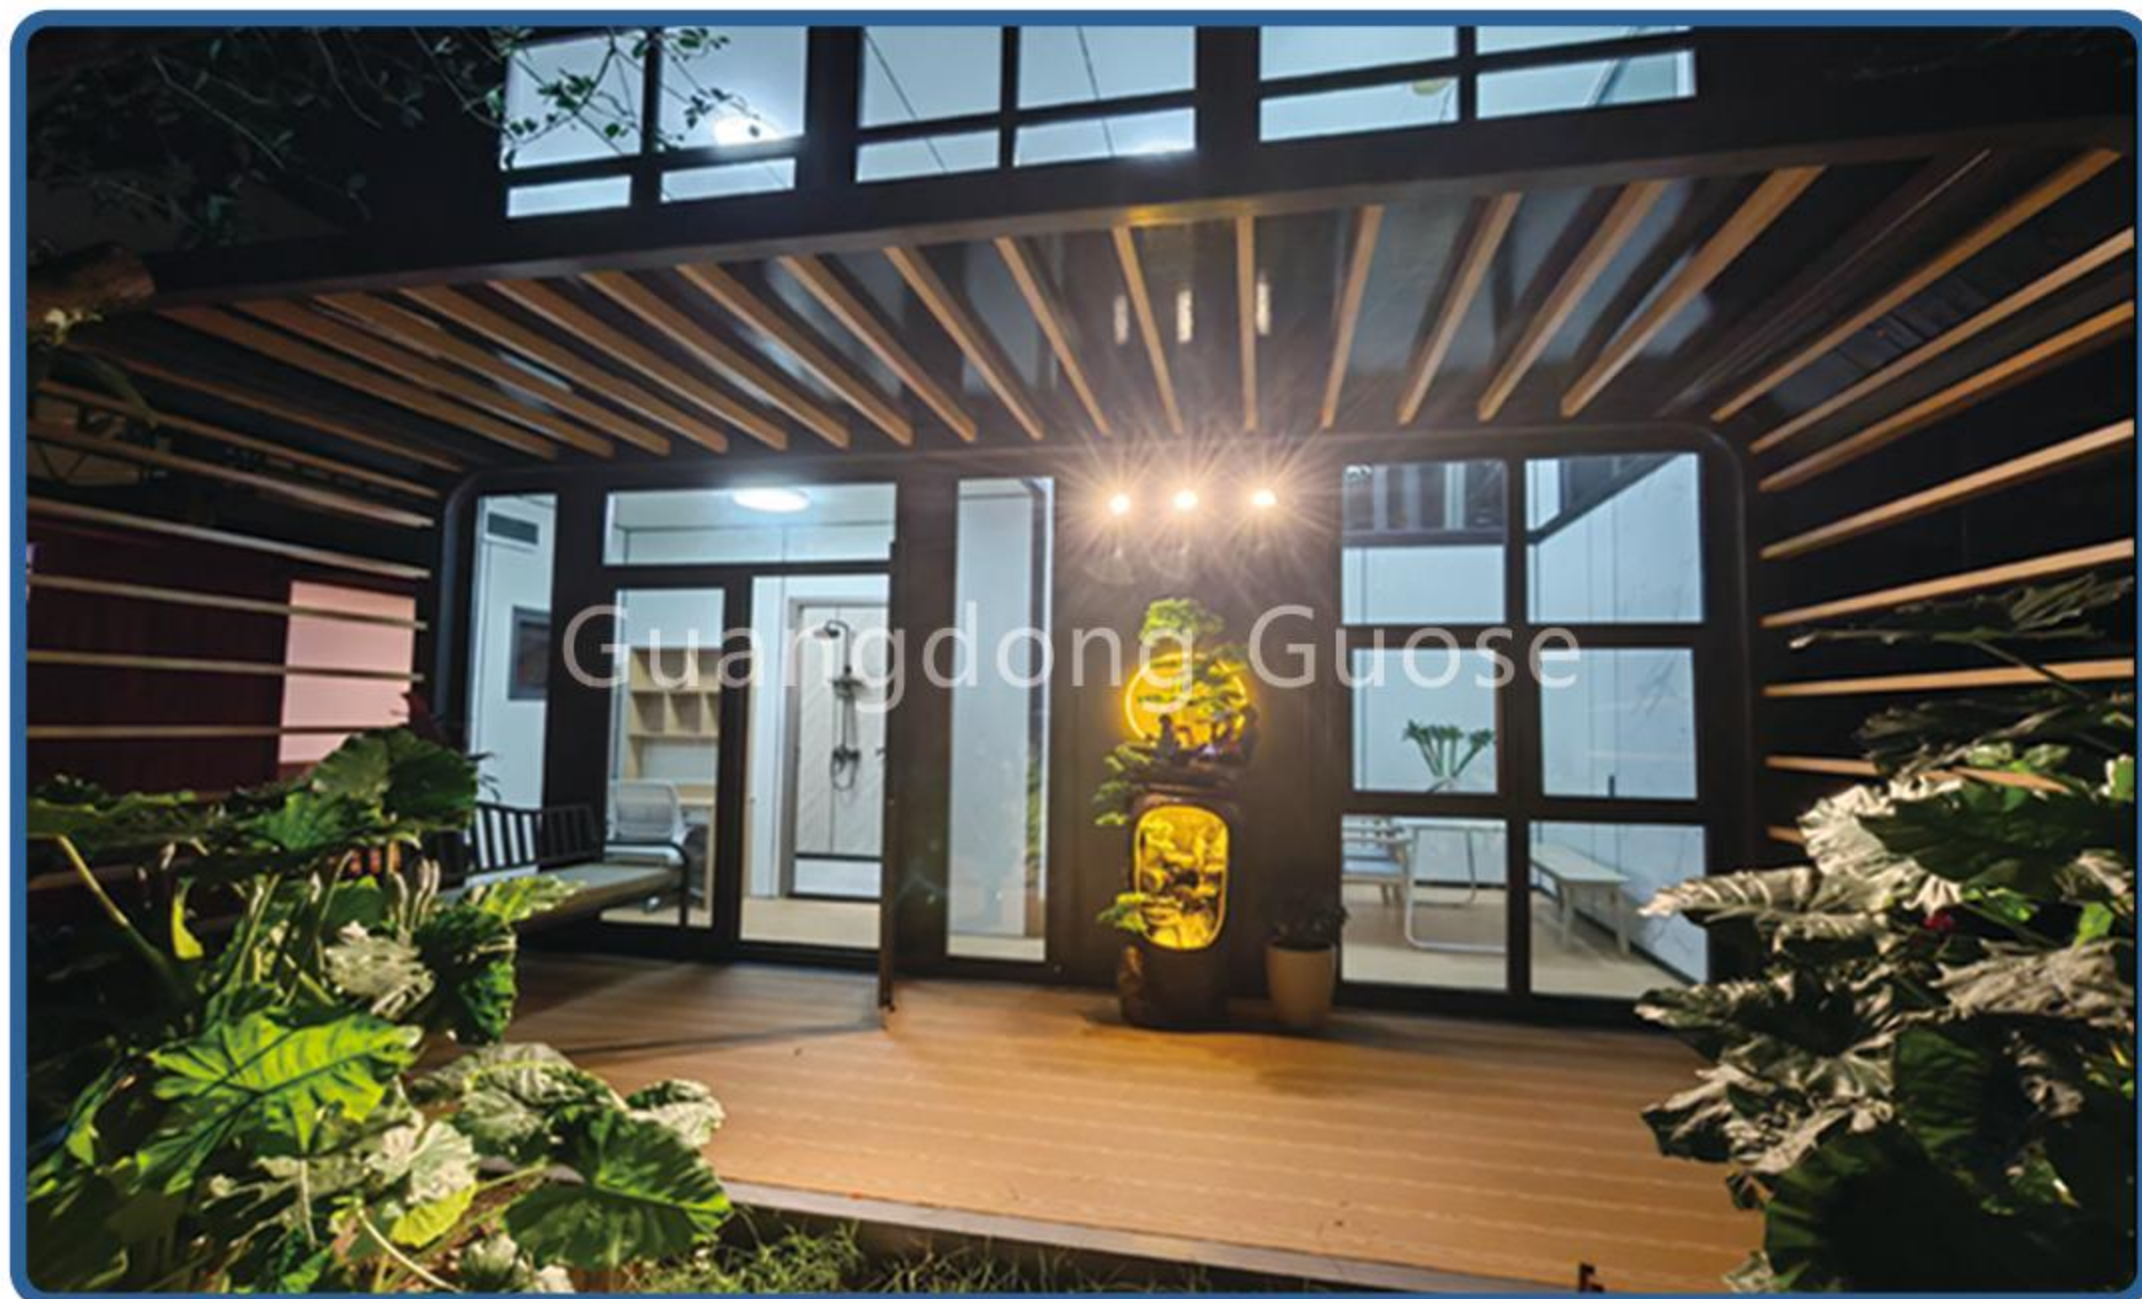

Use area: 12 m²

Number of floors: 1 floor

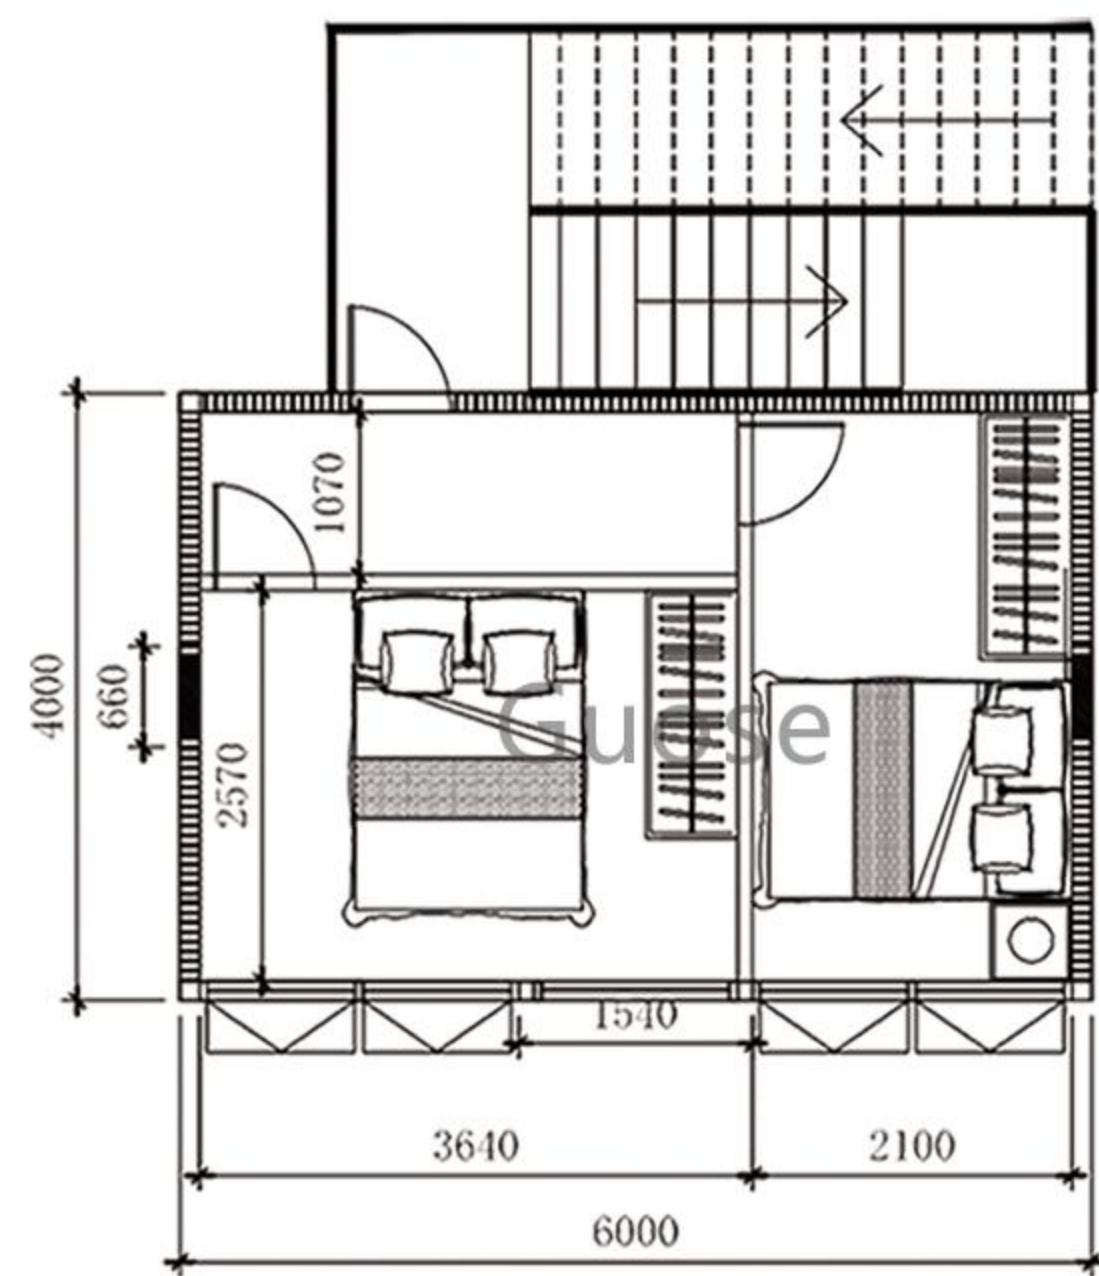

Layout: One bedroom, one kitchen, one bathroom

Number of users: 2-3 people

MODULAR HOUSE-MH01

Floor Plan

Second Floor Plan

MH01 Modular House

Product size: 6000 x 4000 x 5900mm

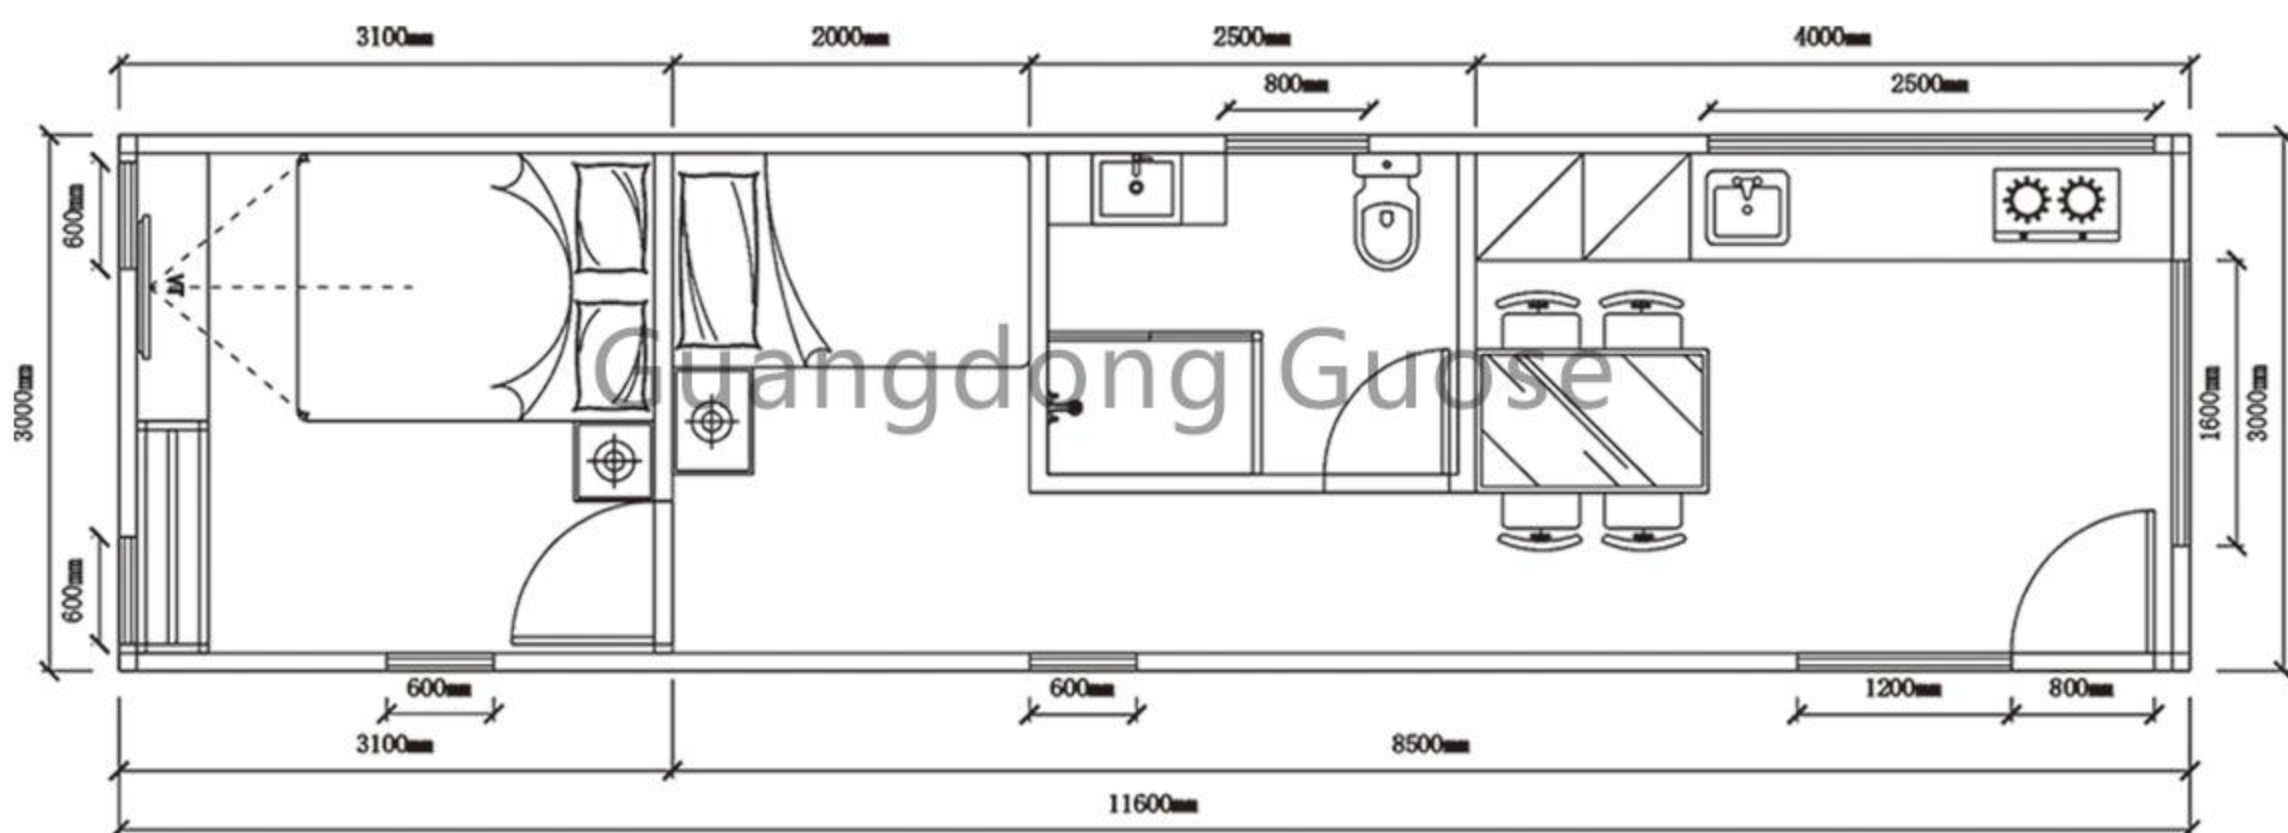

Use area: 48 m²

Number of floors: 2 floors

Layout: Two bedrooms, one bathroom,
one kitchen and one living room

Number of users: 4-6 people

MODULAR HOUSE-MH02

MH02 Modular House

Product size: 11600 x 3000 x 3000mm

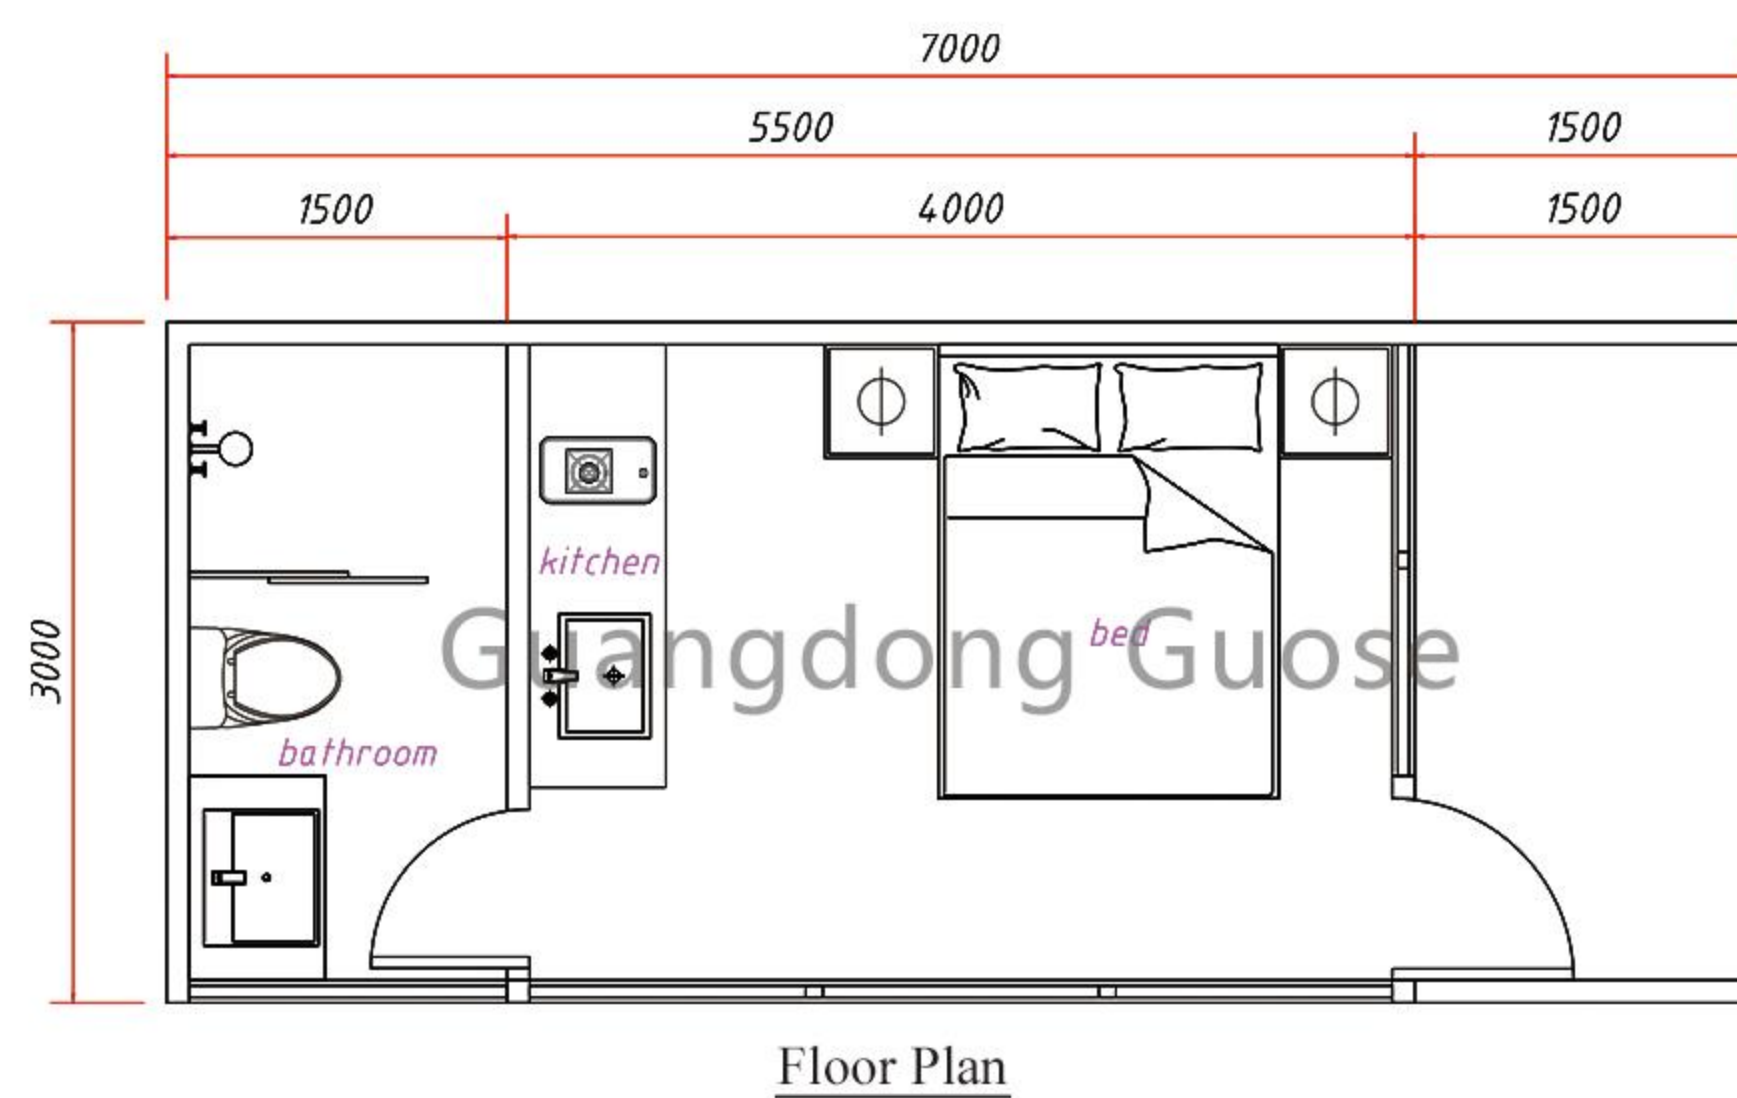

Use area: 34.8 m²

Number of floors: 1 floor

Layout: One bedroom, one living room, one kitchen and one bathroom

Number of users: 3-4 people

MODULAR HOUSE-MH03

MH03 Modular House

Product size: 7000 x 3000 x 2450mm

Use area: 21 m²

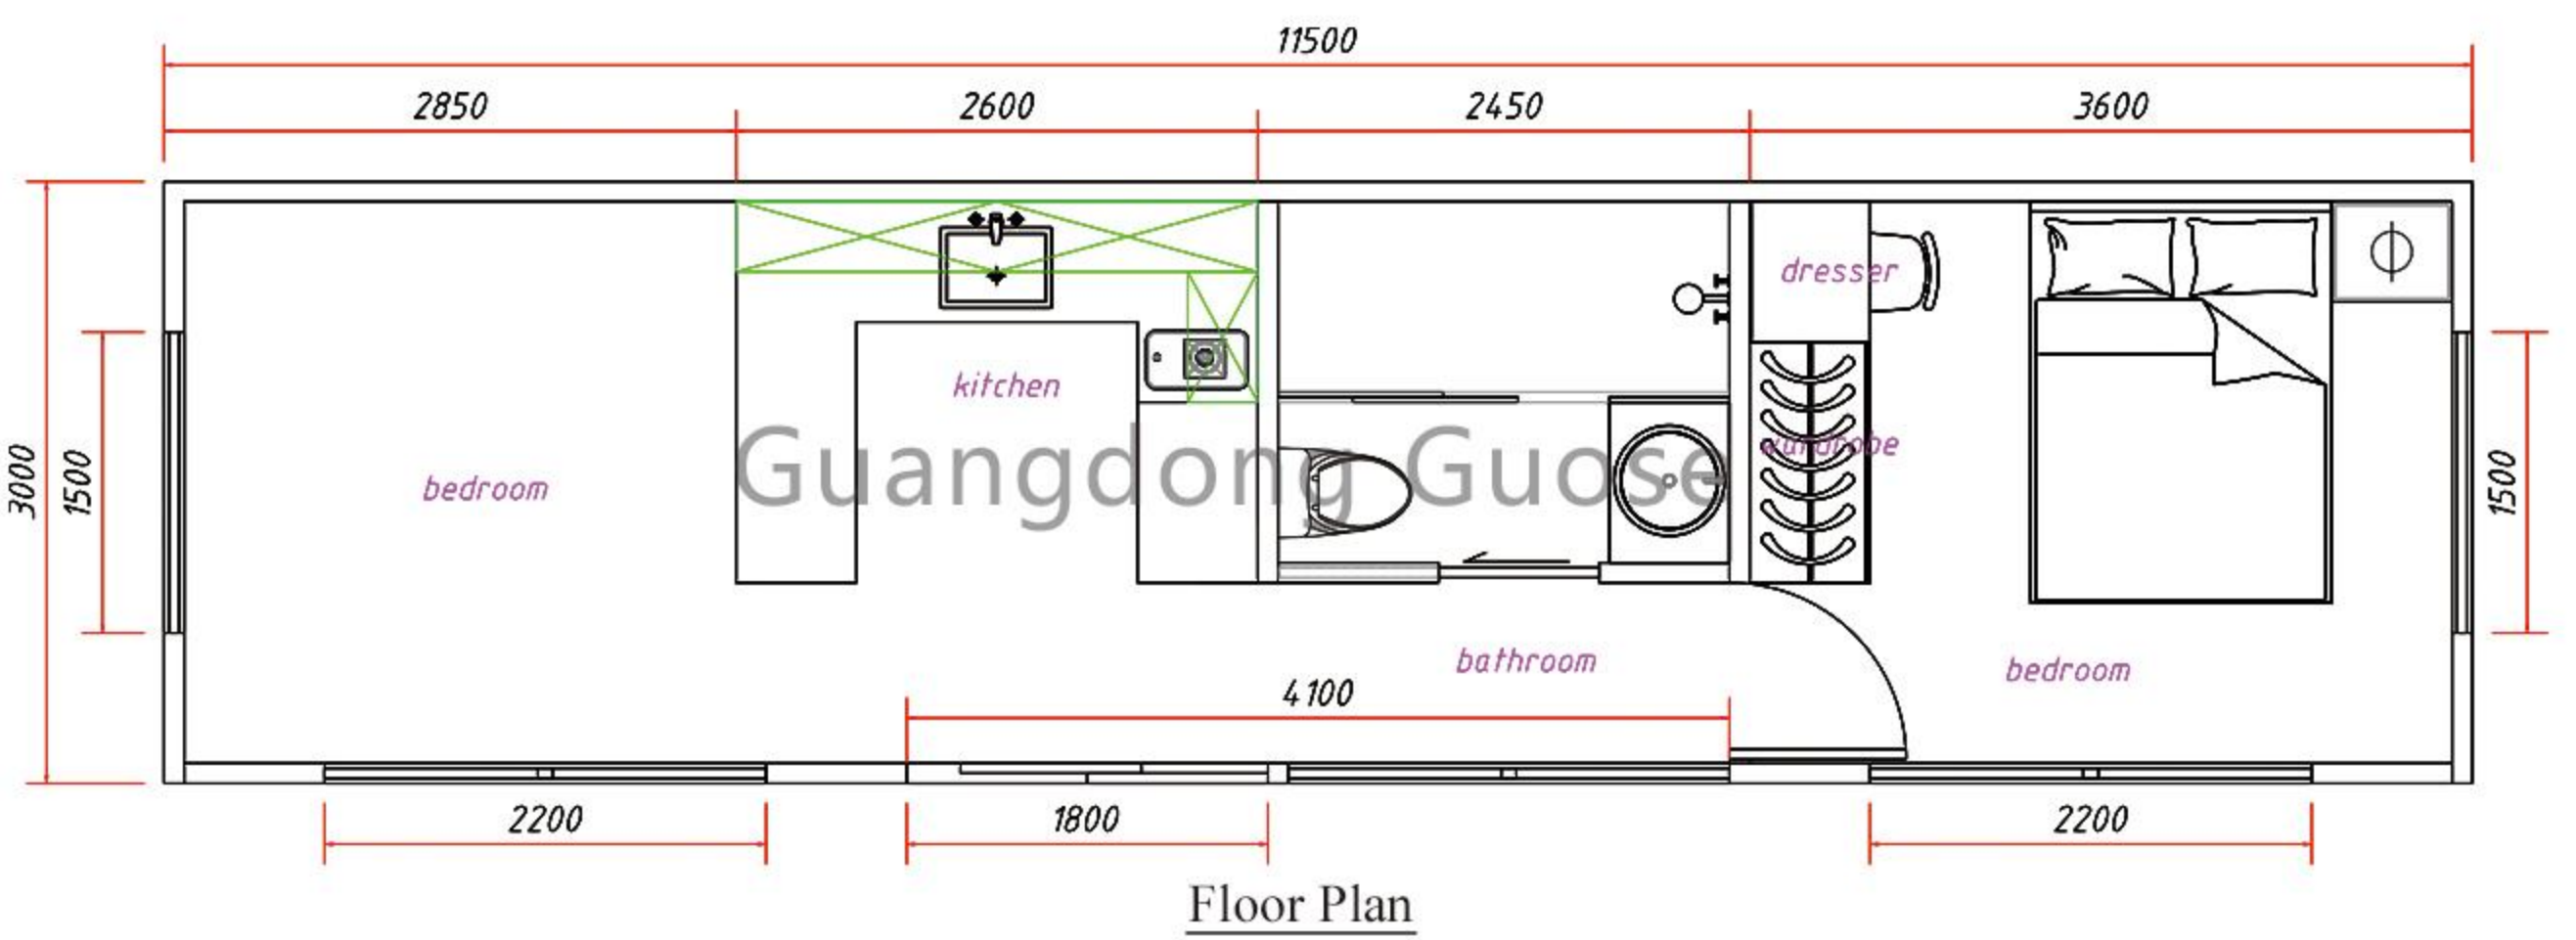

Number of floors: 1 floor

Layout: One bedroom, one kitchen and one bathroom

Number of users: 2-3 people

MODULAR HOUSE-MH05

MH05 Modular House

Product size: 115000 x 3000 x 2450mm

Use area: 34.5 m²

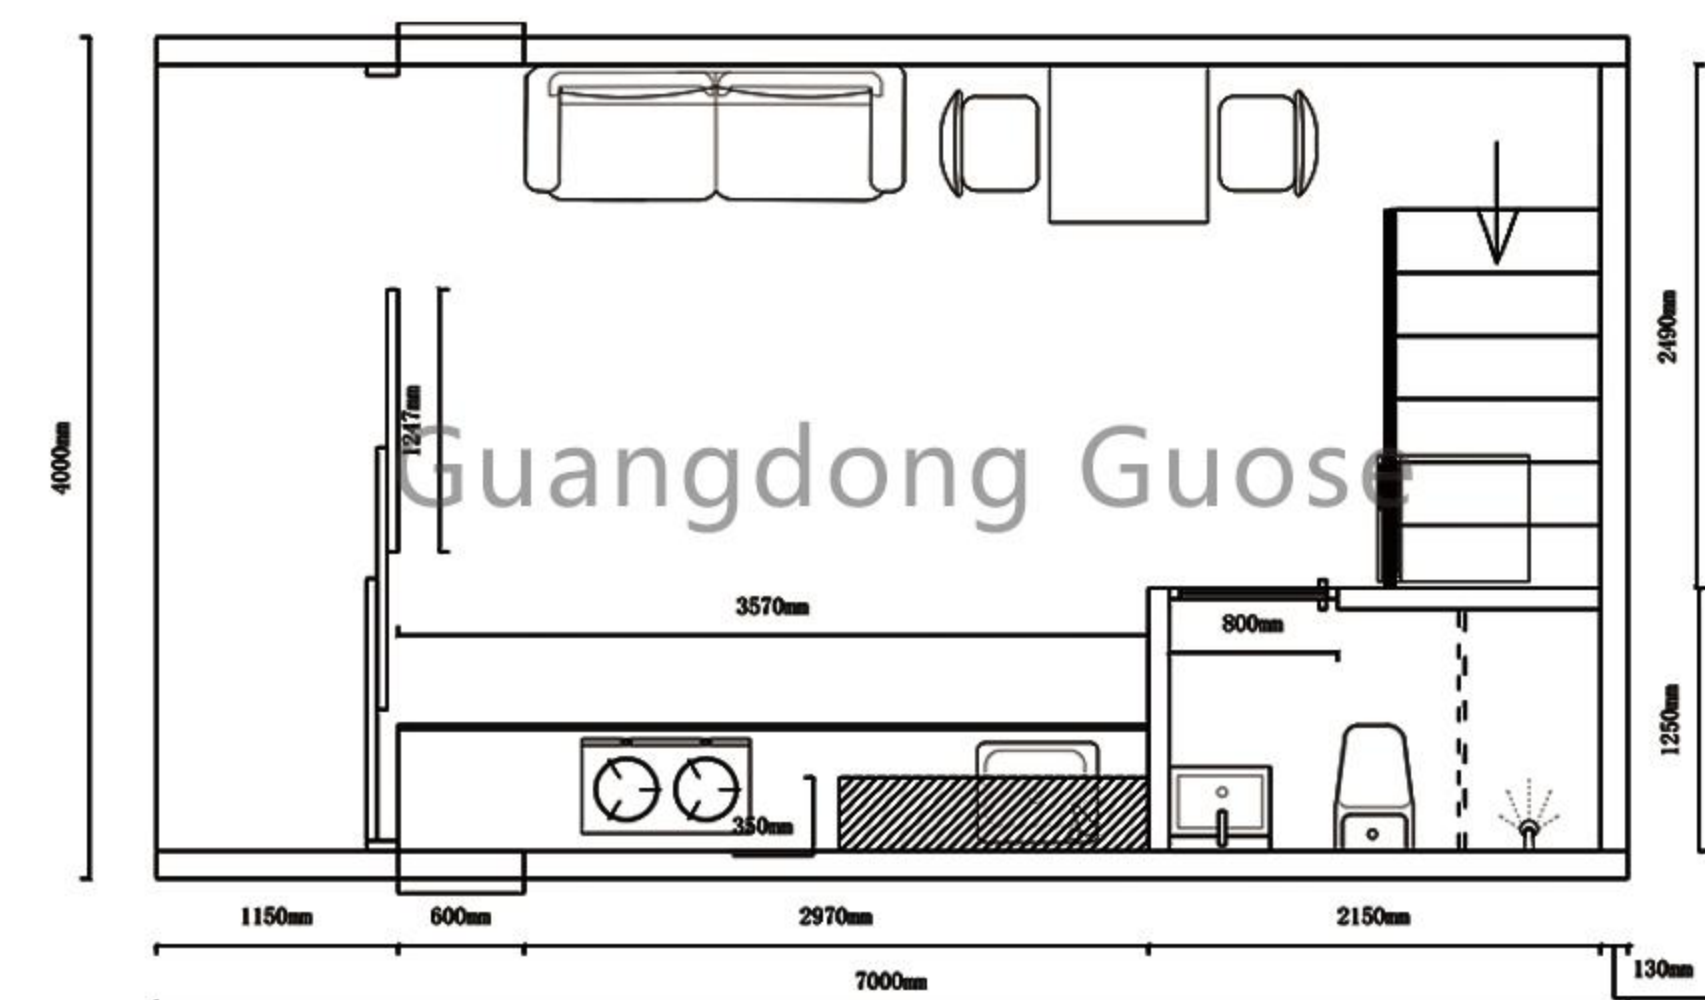

Number of floors: 1 floor

Layout: Two bedroom, one kitchen, one bathroom

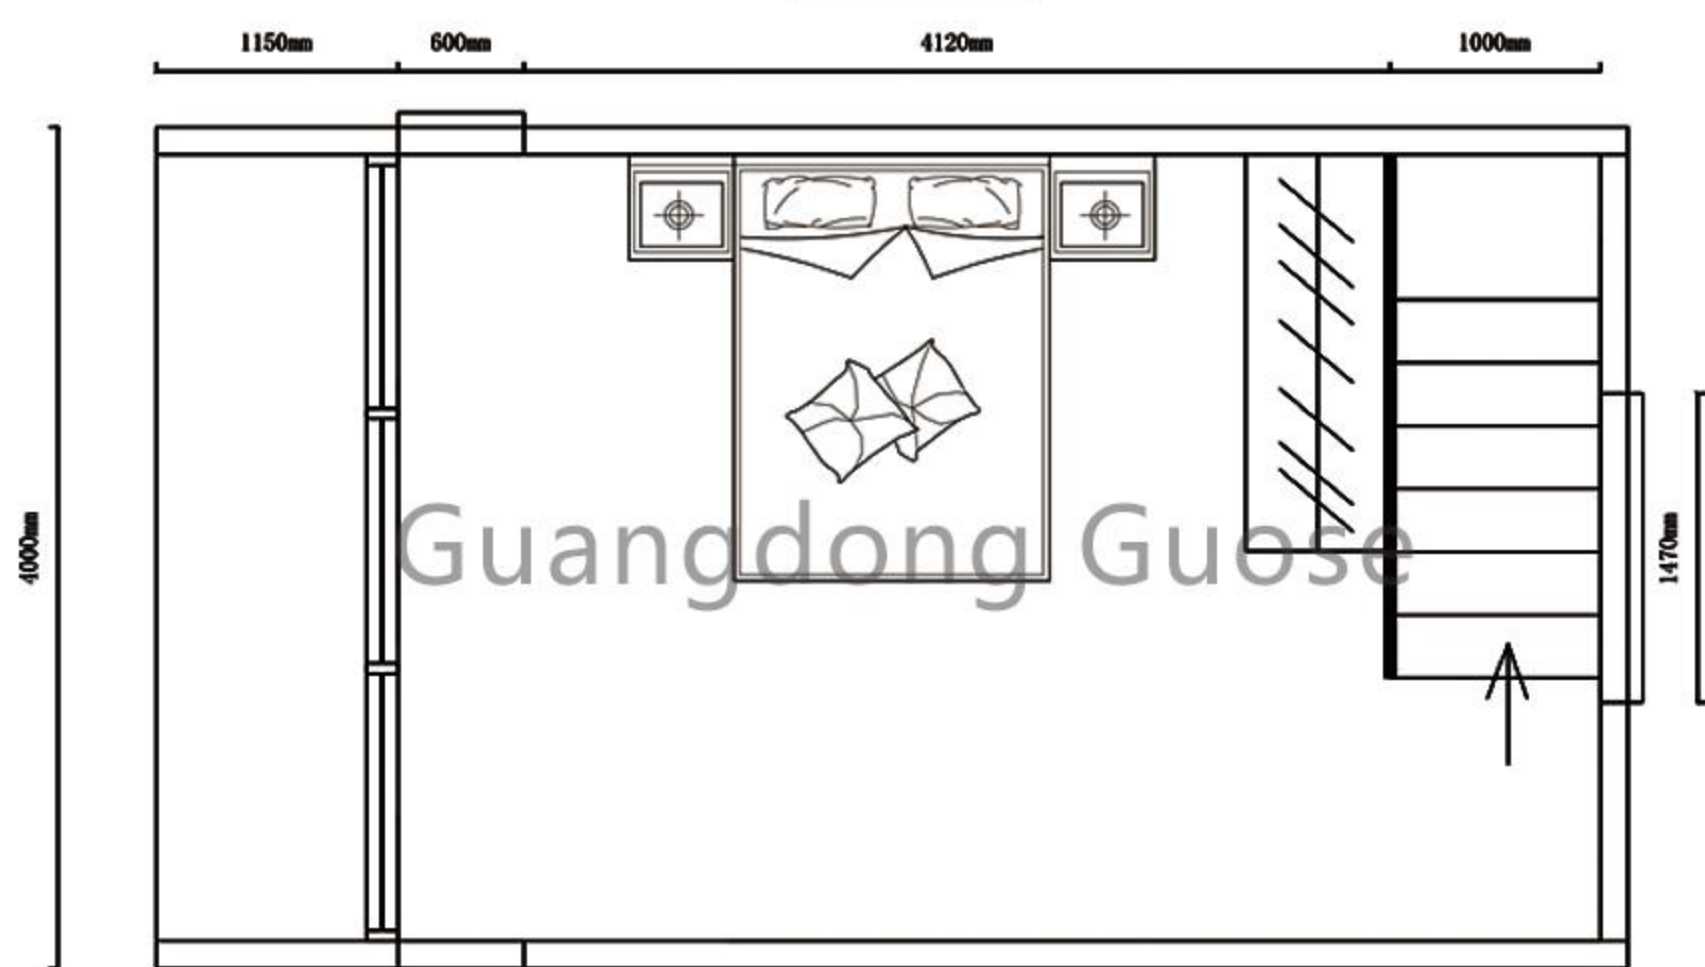

Number of users: 4-6 people

MODULAR HOUSE-MH06

Floor Plan

Second Floor Plan

MH06 Modular House

Product size: 7000 x 4000 x 5000mm

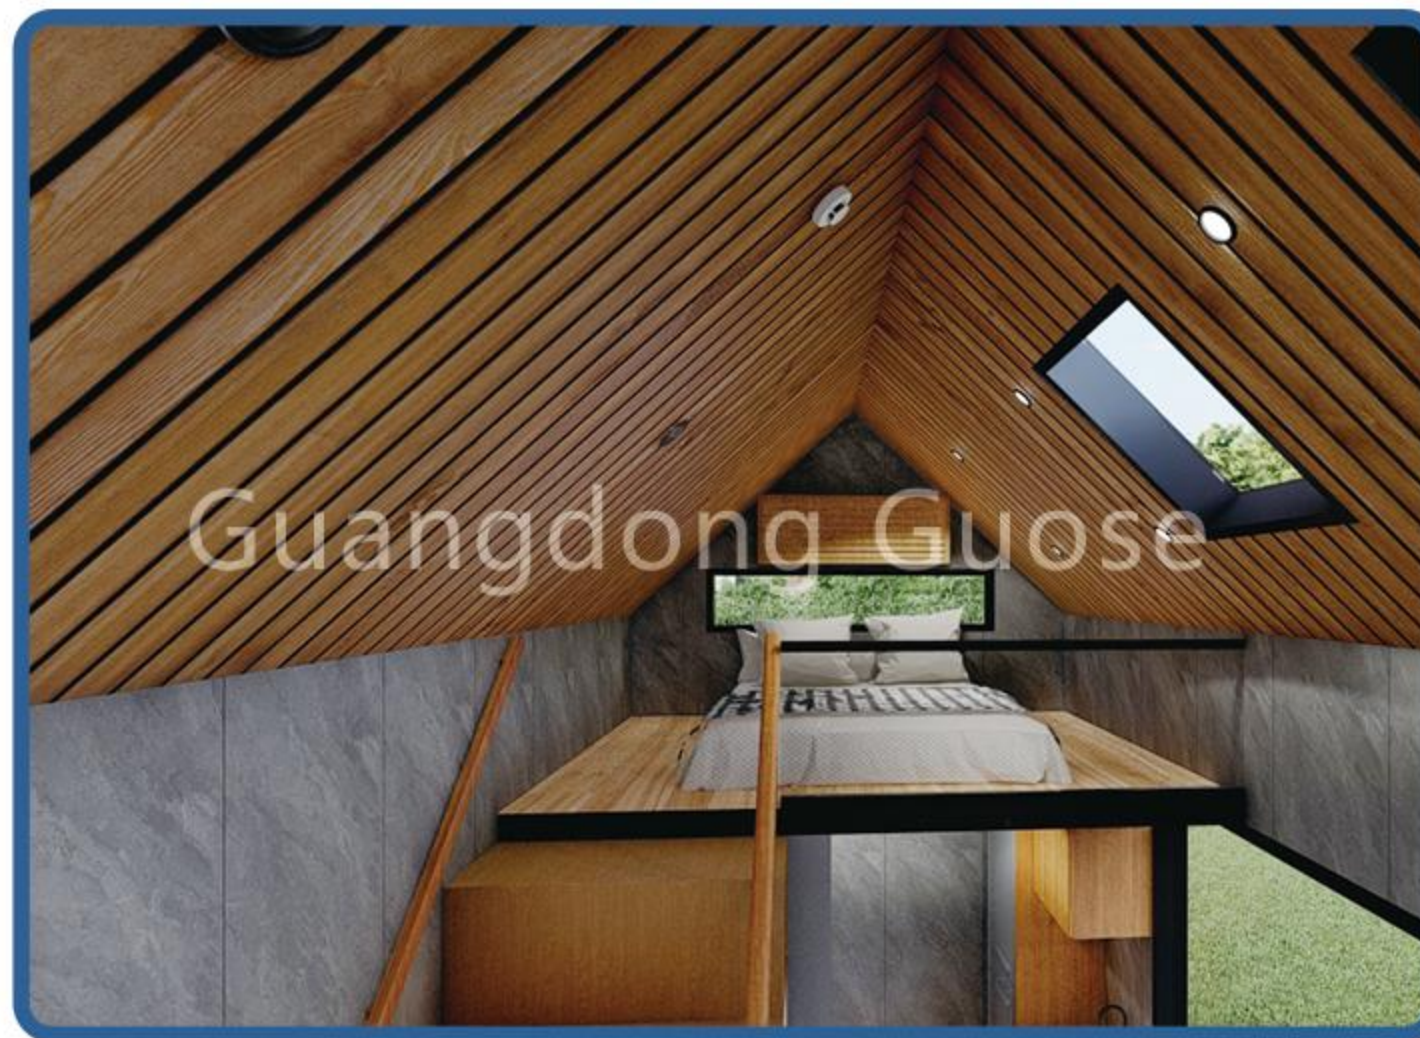

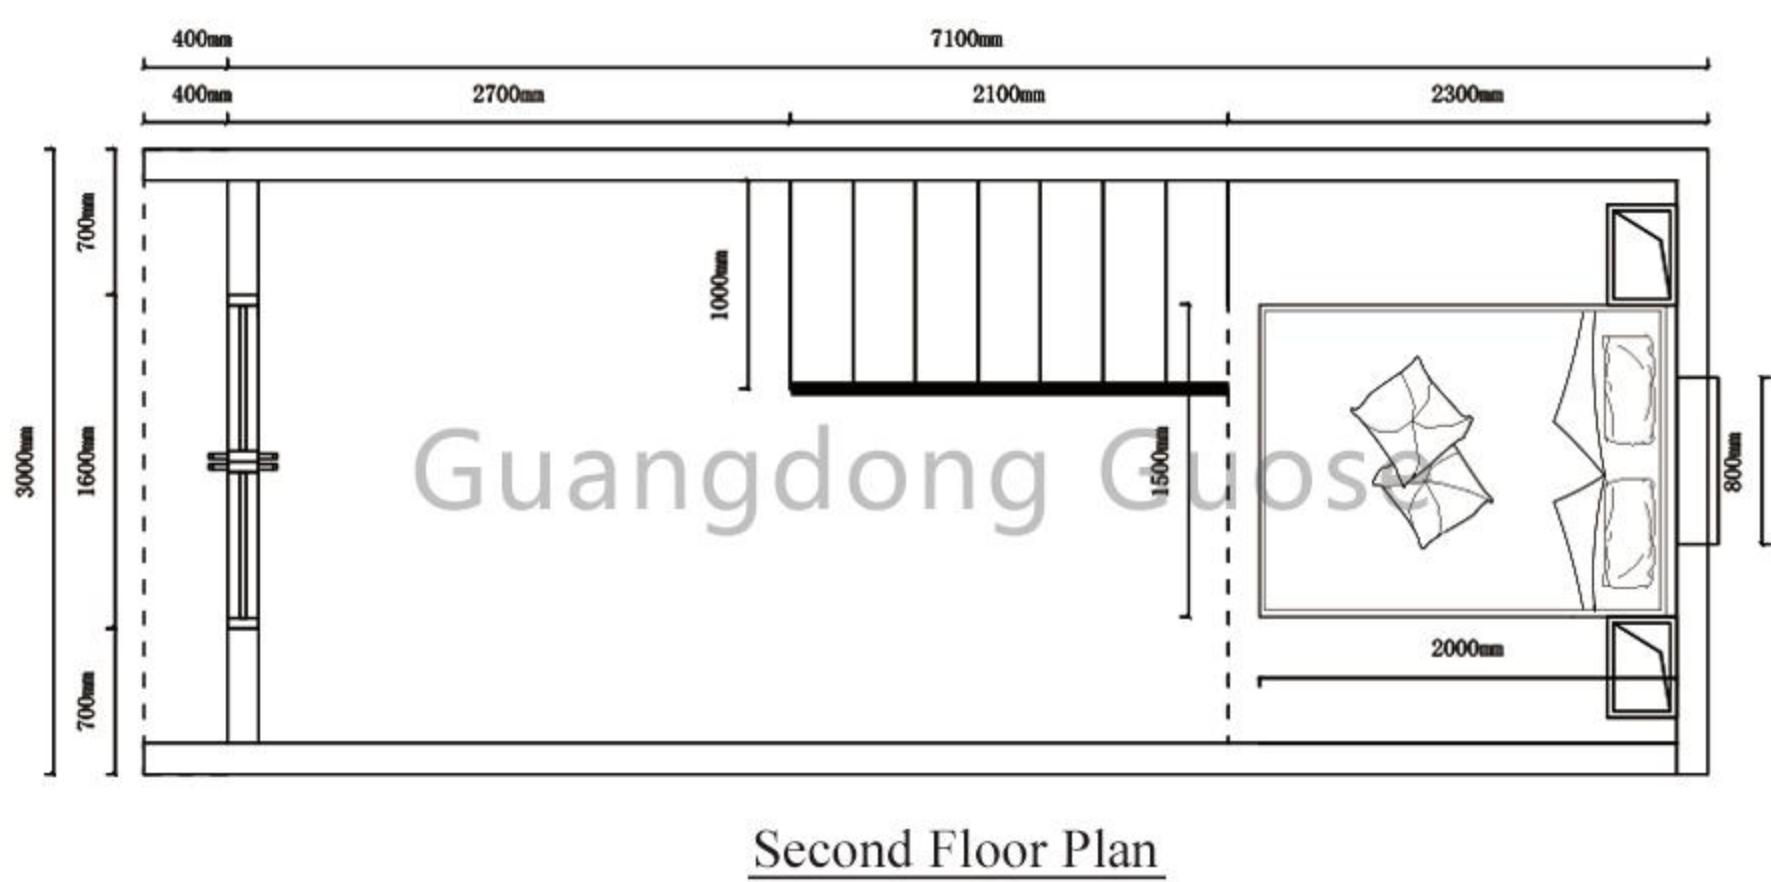

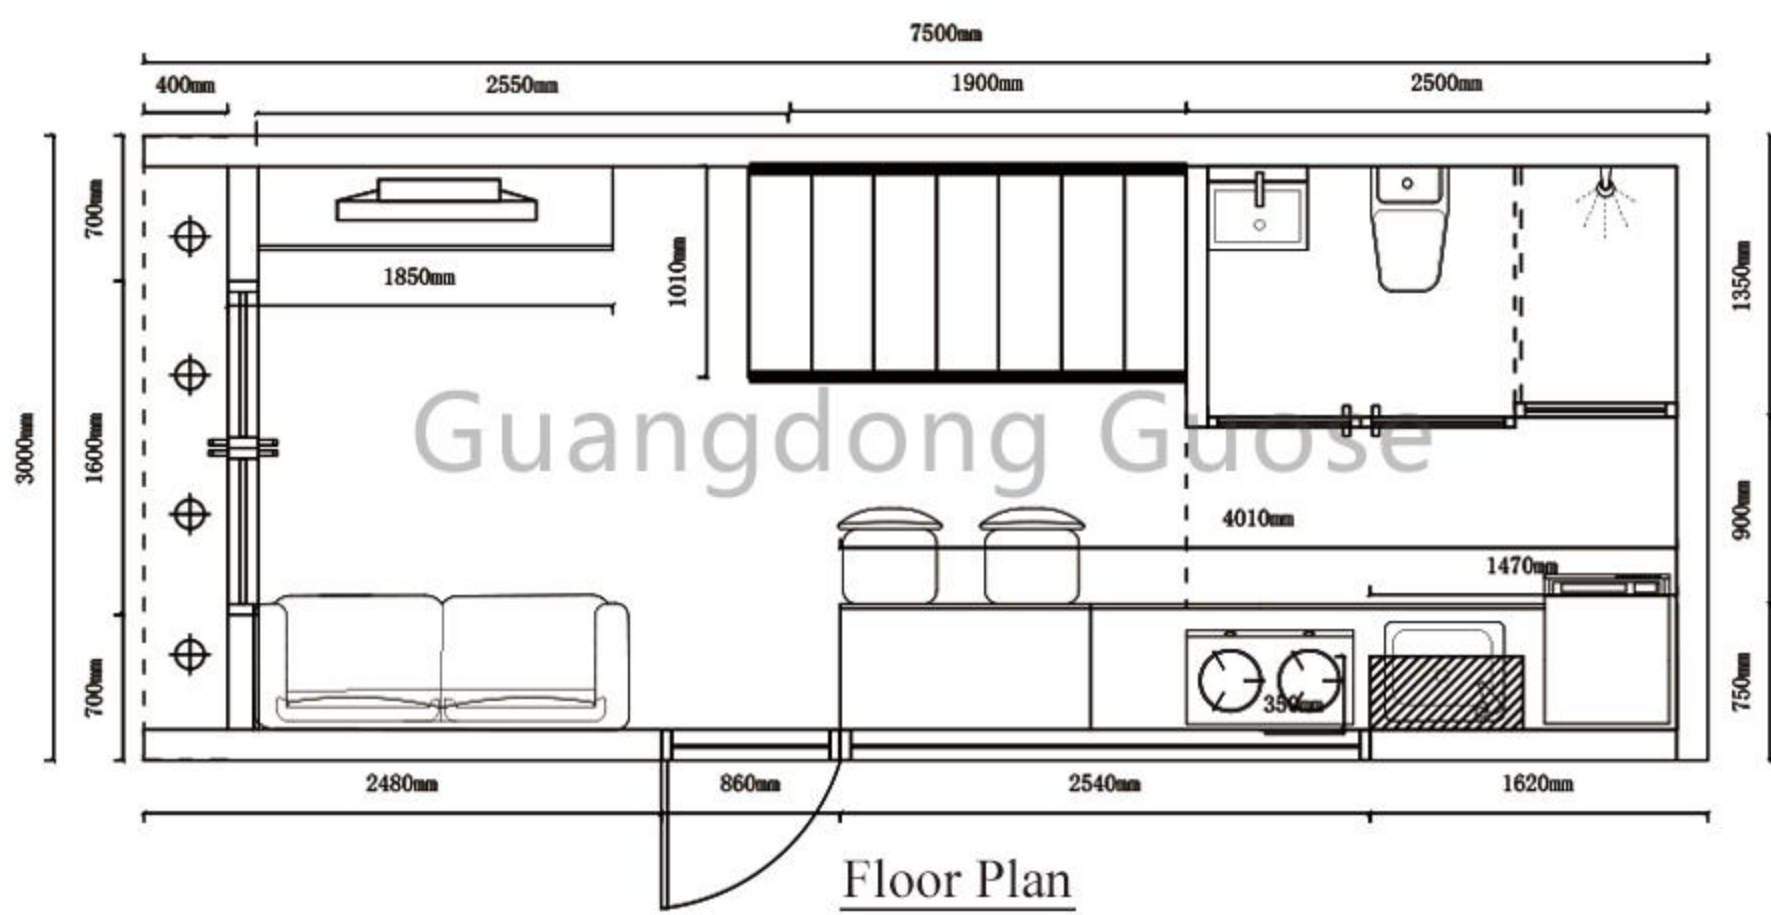

Use area: 56 m²

Number of floors: 2 floors

Layout: One bedroom, one kitchen ,
one bathroom,one living room

Number of users: 2-4 people

MODULAR HOUSE-MH07

MH07 Modular House

Product size: 7500 x 3000 x 4600mm

Use area: 29.4 m²

Number of floors: 2 floors

Layout: One bedroom, one kitchen, one bathroom, one living room

Number of users: 2-4 people
